Maybe even better than free.

The cost of that data transfer is covered by your internet service or the data plan on your phone. You decide who you want to share your files with. You can upload any type of file (movies, music, documents, images, zip files and more). This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. filehosting provides an easy possibility for you to send large files to your friends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. There are no restrictions on the number of times a file can be downloaded. Simply upload your file and share the link. If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely free for everyone. Using file, you can circumvent those limits without paying touprgrade your team chat service. You can give this download link to your friends by mail or instant messenger. Just upload the file you want to share with yourfriends and we send you a download link to your file. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. File isfree to use with no gotchas and no hidden fees. Any file in any format can be uploaded and downloaded for free. Files can be downloaded from any computerfrom our high speed servers. You don't need any special software installed to be able to download your files. It is also allowed to link to the download pagefrom websites and communities. Keep your files private, or send your download links only to friends or family. We have no file size limit. Alternatively youcan choose to share your download links on blogs, forums and social networking sites. No account or credit card is required to get started. Unfortunately, wecan't make that part free. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Sotry our free and simple filehosting service now. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat appshave limits to the size of files that can be transferred within their apps.
