The cost of that data transfer is covered by your internet service or the data plan on your phone. You decide who you want to share your files with. If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely free for everyone. Any file in any format can be uploaded and downloaded for free. Just upload the file you want to share with your friends and we send you a download link to your file. Keep your files private, or send your download links only to friends or family. We have no file size limit. Using file, you can circumvent those limits without paying to upgrade your team chat service. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can upload any type of file (movies, music, documents, images, zip files and more). When you use file, you avoid storing the file you're sending in your cloud storage or mail server. So try our free and simple filehosting service now. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Simply upload your file and share the link. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. Files can be downloaded from any computer from our high speed servers. It is also allowed to link tothe download page from websites and communities. File is free to use with no gotchas and no hidden fees. You can give this download link to your friends bymail or instant messenger. There are no restrictions on the number of times a file can be downloaded. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. Unfortunately, we can't make that part free. Why pay storage fees for a fi
